

Proof Positive. **Andy Sheehy** is committed to:

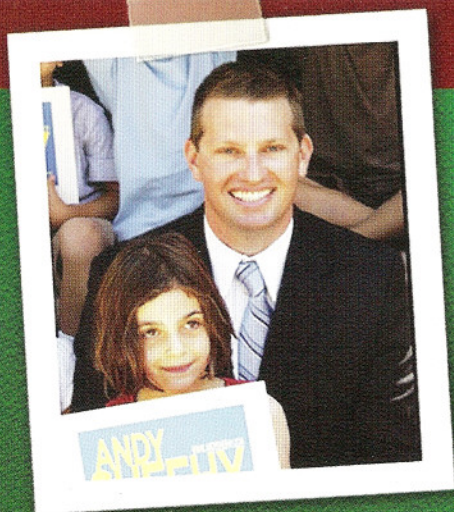

Applying COMMON SENSE SOLUTIONS to the extraordinary problems that we face today. The United States is currently in an economic crisis and so are our schools. Andy believes that there is no better time than now to use the ample reserve funds that the Eureka Union School District enjoys. Andy will work to use these funds to maintain smaller class sizes and prevent another neighborhood school from closing.

Being TRANSPARENT to you the taxpayer. Under Andy Sheehy's watch, the details of all meetings and issues facing the Board will be available to the public with sufficient opportunity for your voice to be heard. Andy will ensure that there are **NO MORE** violations of the Brown Act.*

Using his EXPERIENCE as a teacher to come up with innovative strategies to keep the district performing at a high level. It will be Andy's priority to maintain strong standardized test scores as well as prepare the students of our community to be competitive in the 21st century and develop the skills for a lifetime of learning.

Being a LEADER to help find common ground with key stakeholders. As a former United States Marine and now a nonprofit executive director, Andy is comfortable bringing interested parties together to foster open dialogue and ultimately finding solutions to complex problems.
