As budget director, Tom Campbell crafted the largest increase in state spending ever... and set in motion the deficits we face today.

tax-limitation
committee

political action committee

Dear Fellow Taxpayer,

Tom Campbell has always portrayed himself as a staunch fiscal conservative, but the facts don't hear him out....

Tom Campbell was Governor Schwarzenegger's State Finance Director in 2005. He crafted the largest one year increase in general fund spending ever... a nearly \$12 billion increase that drove total general fund spending to almost \$92 billion – a level that was totally unsustainable.

Campbell conceded that this budget contained "significant borrowing" to sustain the high spending levels. That borrowing has contributed to the \$20 billion state budget deficit taxpayers face today.

And rather than demanding that the Legislature cut wasteful spending to balance the budget, Tom Campbell supported countless new and higher taxes – like higher income taxes, higher sales taxes and even higher vehicle license fees in Prop 1A last year....a message soundly defeated by California taxpayers.

Please go to www.TomIsTheTaxMan.com and sign the American Future Fund petition urging Tom Campbell to oppose new and higher taxes, and wasteful spending. For more information about the National Tax Limitation Committee, go to www.limittaxes.org.
