JOHN ALLARD'S

COMMONSENSE CONSERVATIVE SOLUTIONS

Private Sector Job Creation

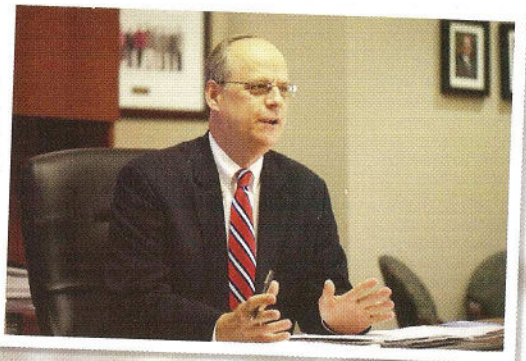

Small businesses create more than half of all jobs in California. John Allard will work to strengthen small businesses by reducing taxes and fees, and eliminating costly regulations.

Balance the Budget

John Allard believes we must make the tough cuts to spending and reform public employee pensions in order to balance the budget.

Improve Education

John Allard will fight to ensure education tax dollars are spent in the classroom, not on more bureaucracy. He'll work tirelessly to raise standards so all children can read, write and speak English before graduating.
