## PLACER COUNTY VICE CHAIR COMMENTS ON RACE FOR PARTY LEADERSHIP

My name is ED ROWEN and I will be attending to the State GOP Convention this weekend in Sacramento. I have to admit being a delegate representing Placer County has been a new experience for me compared to most of you, but being active in politics has not been and I take my job as a delegate very seriously.

I have had the chance to speak to both candidates for the position of Northern California Vice Chairman and I find the contrast between both candidates to be quite striking. I have met Robinette Cook in person and talked to her over the telephone and I have found her to both a committed Conservative and a person who will take the time to help us to build a strong Republican base in our area. I am glad to have both told her that I would vote for her and allowed her to use my name as an endorsement for her.

The other candidate Dr. Arnold Zeiderman, I took the time a few weeks ago to talk to him on the telephone and I found him to be lacking of basic knowledge of both the structure of the California Republican Party and also very non-committal toward an issue that we hold dear as Conservatives. I asked him if he was supportive of the issue of protection of the unborn. He informed me that he did not perform any abortions, but he would not give his opinion or state his belief on the issue nor that he was aware of the Pro-Life plank in the California Republican Party Platform. What scared me even more was when he told me that he had never read our Platform or was aware that there was one and wanted me to show him where the Pro-Life plank existed within the Platform.

This lack of knowledge for someone who wants to serve on the Executive Board of the California Republican Party for our area to me is just plain ridiculous. That is why in the year we celebrate the 100<sup>th</sup> birthday of Ronald Reagan we need a person like Robinette Cook who will support the ideals that led Ronald Reagan to victory and made us proud to be California Republicans.

Respectfully,

Edward Rowen
