Jon,

Not sure where this broke down. Gaines office set the meeting. Obviously there was a mistake somewhere. I thought Cheryl and Mike were attending the meeting today.

From the comments sent to me tonight I believe Jeff misstated the Senators positions. All agreed that any PCR and HQP checks, payments or other activities related to the party or headquarters should be turned over immediately. There was some dispute on "other activities" by HQP that they do not want to disclose and claim are part of other consulting agreements.

We'll get this fixed.

Mark

Hi Lisa,

Do you know anything about the meeting that was held Wednesday about Headquarters Partnership? No one was invited on the side of the issue that wanted transparency?
